

Question Reference Guide

Complete reference of all survey questions, options, and conditional logic.

Screening Questions (Section S)

S1: Gender

Question: "What is your gender?"

Type: Single-coded

Options:

1. Male
2. Female

Conditions: Always show

S2: Age

Question: "What is your age?"

Type: Single-coded (derived into age bands)

Age Bands:

- S2_1: 18-35 years
- S2_2: 36-55 years
- S2_3: 56-75 years

Conditions: Always show

Screening: Age must be 18-75 inclusive

S3: Occupation Screener

Question: "What is your occupation?"

Type: Single-coded

Options:

1. Advertising/PR
2. Marketing/Market Research
3. Lottery sales/distribution
4. Tobacco shop salesperson
5. Other

Conditions: Always show

Screening: If occupation is any of options 1-4, screen out

S4: Category Buyer (Products/Services Bought)

Question: "Which of the following products or services have you bought in the last 6 months?"

Type: Multi-select (minimum 1 selection required)

Options:

1. Lottery played in-store/person
2. Lottery played online/app
3. Paper scratchcards bought in person
4. None of the above

Conditions: Always show

Screening (Compound Rule):

- If age band is 56-75 (S2_3=2,3) AND S4 does not contain option 3 (Paper scratchcards bought in person) → Screen out
-

S5: Category Non Rejector (Would Never Spend Money On)

Question: "Which of the following would you NEVER spend money on?"

Type: Multi-select (maximum 3 selections)

Options:

1. Lottery played in-store/person
2. Lottery played online/app
3. Paper scratchcards bought in person
4. None of the above

Conditions: Always show

Screening:

- If S5 contains option 3 (Paper scratchcards bought in person) → Screen out
-

S7: Target Group

Question: DERIVED FIELD (not asked directly)

Type: Derived from S2 (age) and S4 (category buyer)

Options:

1. Young nonrejectors 18-35 (players or nonplayers)

- Logic: S2_1=1 (age 18-35) AND (S4=3 OR S5≠3)
- Meaning: Age 18-35 AND (buys paper scratchcards OR doesn't reject paper scratchcards)

2. Current SC players 36-75

- Logic: S2_3=2,3 (age 36-75) AND S4=3
- Meaning: Age 36-75 AND buys paper scratchcards

Conditions: Always derived

S8: SC Player Type

Question: DERIVED FIELD (not asked directly)

Type: Derived from S4 (category buyer)

Options:

1. SC Players

- Logic: If S4 contains option 3 (Paper scratchcards bought in person)

2. SC Non Players

- Logic: If S4 does not contain option 3

Conditions: Always derived

S9: Brand Buyers (Brands Bought)

Question: "Which of the following lottery brands have you bought in the last 6 months?"

Type: Multi-select (minimum 1 selection required)

Options:

1. Zlatá rybka
2. Černá perla
3. Vánoční losy
4. Rentiér
5. Sázka na 6
6. Sportka
7. EuroJackpot
8. EuroMillions
9. Šťastných 10
10. Kasička
11. Loterie
12. Other

Conditions: Always show

Concept Test Questions (Section B)

All Section B questions are asked per concept tested. Each respondent sees multiple concepts in randomized order.

B2: Priced Purchase Intent

Question: "How likely would you be to buy this product at the stated price?"

Type: Single-coded (5-point Likert)

Options:

1. Definitely will buy
2. Probably will buy
3. Might or might not buy
4. Probably won't buy
5. Definitely won't buy

Conditions: Always show

Note: This is a key branching question - responses determine if B21 and B22 are asked

B21: Barriers to Purchase

Question: "Why wouldn't you buy this product?"

Type: Multi-select (minimum 1 selection required, random order)

Options:

1. I don't play board games
2. The game mechanics didn't appeal to me
3. The rules are too complicated
4. The game's theme is not appealing to me
5. The ticket price is too high
6. The main prize is too low
7. Other reason, please specify

Conditions: Only show if B2=4,5 (low purchase intent)

Logic: Only ask about barriers when respondent has low purchase intent

B3: Uniqueness

Question: "How unique is this product compared to other products on the market?"

Type: Single-coded (5-point Likert)

Options:

1. Very unique
2. Somewhat unique
3. Neither unique nor common
4. Somewhat common
5. Very common

Conditions: Always show

B4: Value for Money

Question: "Do you think this product offers good value for money at [PRICE]?"

Type: Single-coded (5-point Likert)

Options:

1. Excellent value
2. Good value
3. Fair value
4. Poor value
5. Very poor value

Conditions: Always show

Note: Price is dynamically inserted from concept

B6: Likeability

Question: "How much do you like this product overall?"

Type: Single-coded (6-point Likert)

Options:

1. Like it very much
2. Like it quite a bit
3. Like it somewhat
4. Dislike it somewhat
5. Dislike it quite a bit
6. Dislike it very much

Conditions: Always show

B7: Increment (Buy Instead if Not Available)

Question: "If this product was not available, would you buy a different scratchcard instead?"

Type: Binary (Yes/No)

Options:

1. Yes - I would buy a different scratchcard
2. No - I would not buy any scratchcard

Conditions: Always show

Note: This is a branching question - if B7=1, then B8 is asked (though B8 not in current implementation)

B11: Relevance

Question: "How relevant is this product to you personally?"

Type: Single-coded (5-point Likert)

Options:

1. Very relevant
2. Somewhat relevant
3. Neither relevant nor irrelevant
4. Somewhat irrelevant
5. Very irrelevant

Conditions: Always show

B11a: Playfulness

Question: "How playful and fun does this product seem?"

Type: Single-coded (5-point Likert)

Options:

1. Very playful
2. Somewhat playful
3. Neither playful nor serious
4. Somewhat serious
5. Very serious

Conditions: Always show

B12: Excitement

Question: "How exciting is this product?"

Type: Single-coded (4-point Likert)

Options:

1. Very exciting
2. Somewhat exciting
3. Not very exciting
4. Not at all exciting

Conditions: Always show

B13: Understanding (Other Category)

Question: "How well do you understand what this product is about?"

Type: Slider (9-point scale)

Options:

- Scale: 1-9
- 1 = Don't understand at all
- 9 = Understand completely

Conditions: Always show

B14: Believability

Question: "How believable is the product concept?"

Type: Single-coded (4-point Likert)

Options:

1. Very believable
2. Somewhat believable
3. Not very believable
4. Not at all believable

Conditions: Always show

B15: Likes (Open-ended)

Question: "What do you like most about this product?"

Type: Open text

Options:

- Free-text response
- OR "Nothing" / blank response (respondent has nothing to like)

Conditions: Always show

Note: Respondents can leave blank or indicate "nothing" if they have no positive feedback

B16: Dislikes (Open-ended)

Question: "What do you like least about this product?"

Type: Open text

Options:

- Free-text response
- OR "Nothing" / blank response (respondent has no dislikes)

Conditions: Always show

Note: Respondents can leave blank or indicate "nothing" if they have no negative feedback

B22: Would Buy as Gift

Question: "Would you consider buying this product as a gift?"

Type: Single-coded (5-point Likert)

Options:

1. Definitely would buy as gift
2. Probably would buy as gift
3. Might or might not buy as gift
4. Probably wouldn't buy as gift
5. Definitely wouldn't buy as gift

Conditions: Only show if B2=1,2,3 (any positive purchase intent)

Logic: Only ask about gift intent when respondent has some purchase intent

Note: This is a branching question - responses determine if B23 is asked

B23: Gift Occasions

Question: "For what occasions do you think this scratch card / board game is suitable?"

Type: Multi-select (minimum 1 selection required, random order)

Options:

1. To play at home with family or a partner
2. For a party with friends
3. For a cottage stay, weekend getaway, or vacation
4. For another occasion, please specify

Conditions: Only show if B22=1,2,3 (any positive gift intent)

Logic: Only ask about occasions when respondent would consider buying as gift

B24: Pleased with Gift

Question: "How pleased would you be to receive this product as a gift?"

Type: Single-coded (5-point Likert)

Options:

1. Very pleased
2. Somewhat pleased
3. Neither pleased nor displeased
4. Somewhat displeased
5. Very displeased

Conditions: ALWAYS SHOW (no conditions)

Note: This question has no conditional logic - it is asked regardless of B22 response

Conditional Logic Summary

Screening Flow

1. **S3 (Occupation)** → If excluded occupation → Screen out
2. **S2 (Age)** → If outside 18-75 → Screen out
3. **S4 (Category Buyer) + S2 (Age)** → If age 56-75 AND doesn't buy paper scratchcards → Screen out
4. **S5 (Category Non Rejector)** → If would never spend on paper scratchcards → Screen out

Question Flow (Per Concept)

1. **B2** → Always show (BRANCHING POINT)
 - If B2=4,5 → Show **B21** (Barriers)
 - If B2=1,2,3 → Show **B22** (Gift Intent)
2. **B3-B16** → Always show
3. **B22** → Only if B2=1,2,3 (BRANCHING POINT)
 - If B22=1,2,3 → Show **B23** (Occasions)
4. **B24** → Always show

Questions NOT Implemented

The following questions from the source questionnaire are **NOT implemented** in this system:

- **B1: Concept Intro**

- Type: Informational text (not a question)
- Reason: Not a measurable question, just concept presentation text
- **B8: Portfolio Incrementality**
 - Condition: Only if B7=1 (would buy different scratchcard)
 - Reason: Not present in ground truth data
- **B17: Highlighter Drivers**
 - Type: Visual/image-based question
 - Reason: Not present in ground truth data, requires visual interaction
- **B18: Highlighter Barriers**
 - Type: Visual/image-based question
 - Reason: Not present in ground truth data, requires visual interaction
- **B20: Imagery**
 - Type: Imagery attributes question
 - Reason: Not present in ground truth data

Why not implemented: These questions are either non-questions (B1), visual/interactive questions not suitable for synthetic generation (B17, B18), or not present in the ground truth dataset used for validation (B8, B17, B18, B20).

Question Order

Screening Section (S)

1. S1 - Gender
2. S2 - Age
3. S3 - Occupation (SCREENER)
4. S4 - Category Buyer (SCREENER with compound rule)
5. S5 - Category Non Rejector (SCREENER)
6. S7 - Target Group (DERIVED)
7. S8 - SC Player Type (DERIVED)
8. S9 - Brand Buyers

Concept Test Section (B) - Per Concept

1. B2 - Purchase Intent
2. B21 - Barriers (conditional)
3. B3 - Uniqueness
4. B4 - Value for Money
5. B6 - Likeability
6. B7 - Increment
7. B11 - Relevance

- 8. B11a - Playfulness
 - 9. B12 - Excitement
 - 10. B13 - Understanding
 - 11. B14 - Believability
 - 12. B15 - Likes (open)
 - 13. B16 - Dislikes (open)
 - 14. B22 - Would Buy as Gift (conditional)
 - 15. B23 - Gift Occasions (conditional)
 - 16. B24 - Pleased with Gift
-

Scale Types Used

- **LIKERT_4:** 4-point Likert scale (B12, B14)
 - **LIKERT_5:** 5-point Likert scale (B2, B3, B4, B11, B11a, B22, B24)
 - **LIKERT_6:** 6-point Likert scale (B6)
 - **SLIDER_9:** 9-point slider scale (B13)
 - **BINARY:** Yes/No question (B7)
 - **MULTI_SELECT:** Multiple selection questions (S4, S5, S9, B21, B23)
 - **OPEN_TEXT:** Free-text response (B15, B16)
-

Important Notes

1. **Text Labels vs Codes:** The system uses text labels (e.g., "Definitely will buy") not numeric codes (996, 998)
2. **Open-Text Questions (B15, B16) - FULLY IMPLEMENTED:**
 - **B15** uses specific prompt: "What do you like most about this product?"
 - **B16** uses specific prompt: "What do you like least about this product?"
 - Both prompts explicitly encourage honest responses including "Nothing"
 - System detects "nothing" variants and converts to blank strings
 - Blank responses are valid and expected for some personas/concepts
 - Implementation includes post-processing to handle minimal responses
3. **Random Order:** Multi-select questions B21 and B23 randomize option order
4. **Minimum Selections:** Multi-select questions require minimum 1 selection (except S5 which allows 0 for "None")
5. **Derived Fields:** S7 and S8 are calculated, not asked
6. **Conditional Chains:**
 - B2 → B21 (if low intent)
 - B2 → B22 (if positive intent) → B23 (if positive gift intent)
7. **Price Dynamic:** B4 includes concept price dynamically

8. **Ground Truth Alignment:** All questions match exactly to source questionnaire document

9. **Questions Not Implemented:** B1, B8, B17, B18, B20 are not implemented (see "Questions NOT Implemented" section above)

Generated: December 12, 2024 **Source:** Board games_questionnaire EN MASTER.docx

Implementation: S.A.G.E Test System
